11 Conformity assessment, assessment requirements, Policy identifiers

The Service Provider conducts Conformity assessment annually.

The conformity assessment procedure required for the start of the eIDAS qualified trust archiving service was performed by MATRIX Vizsgáló, Ellenőrző és Tanúsító Kft. on date: October 05 2020. It's identifier is I-NA20T_TAN.QARCHIVE.HU

Legislation under investigation:

- Regulation (EU) No 910/2014 (eIDAS)
- 24/2016. BM decree
- Government Decree 470/2017
- Act CIII of 2023 (DÁP)

Standards under investigation:

- Standard EN 319 401 v3.1.1
- Standard TS 119 511-1 v1.1.1

Identifiers of the authentication policies and regulations under investigation:

- Archiving Order (OID: 1.3.6.1.4.1.54136.1.1.1.1.x.x¹),
- Archiving Policy (OID: 1.3.6.1.4.1.54136.1.1.1.2.x.x²),
- ETSI TS 119511 Qualified Authentication Policy Code (OID: 0.4.0.19511.1.2)

Compliance with this is also compliance with the qualified archiving (preservation) requirements.

¹ Currently available Archiving Order version.

² Currently available Archiving Policy version.

	OID	1.3.6.1.4.1.54136.1.1.1.4.1.6

12 Access of a third person

The client when entering into a contract with the Service Provider, the client may grant authorization by completing the “Power of Attorney Template”.

The Service Provider’s “Power of Attorney Template” is available at the following web address:
<https://notarchiv.hu/docs.html>.

13 Maintaining interpretability

Interpretability is maintained for digitally signed e-Files. The Service Provider ensures that the necessary options for displaying files of certain formats are:

- .pdf,
- .txt

available at all times during the archiving period.

The Service Provider ensures the readability in the technical sense, so it does not take responsibility for the interpretability of the content of the files (for example: any blank or incorrectly scanned but regular format of .pdf or binary .txt file uploaded due to incorrect scanning.)

14 Information needed for long time preservation

To preserve a document for long time the following information needed:

- the document,
- the signature on the document,
- the qualified timestamp on the document,
- the full certificate chain of signer certificate, and the corresponding CRL or OCSP data,
- the full certificate chain of the timestamp certificate, and the corresponding CRL or OCSP data.

Without these data, there is not enough data to accept a document for preservation.
